To the Honourable the Speaker and Members of the Legislative Assembly of New South Wales in Parliament assembled.

The Petition of citizens of New South Wales

Brings to the attention of the House the planned divestment of land on the Royal North Shore Hospital (RNSH) Campus.

Royal North Shore Hospital is a major teaching hospital serving 1 in 17 Australians. The hospital is currently experiencing unprecedented increases in activity, year-on-year. If campus land is sold or long-term leased (e.g. 99 years) our ability, in the medium to long-term, to grow and develop to meet this increasing demand is lost.

The undersigned petitioners therefore ask the Legislative Assembly to:

(1) Cease the planned divestment of land on RNSH campus.

(2) Preserve the land for future use solely for the benefit of the hospital, its patients and visitors, and the local community.
